+ROCK WALL/ COMBO KIT

Assembly Instructions
Instrucciones de Construcción • Instructions de montage

IMPORTANT! Intended for residential use by children ages 2 to 10, only on properly installed PlayStar Ninja Power playsets. Before use refer to complete safety guidelines in your original playset, at www.playstarinc.com, or at 1-888-752-9782. Specifications subject to change without notice.

¡Importante! Para uso residencial, para niños de 2 a 10 años y para usarse sólo en conjuntos de juego PlayStar Poder Ninja correctamente instalados. Antes de usar consulte las normas completas de seguridad de su conjunto de juego original, en www.playstarinc.com o al 1-888-752-9782. Las especificaciones están sujetas a cambios sin previo aviso.

Important! Conçu pour une utilisation résidentielle par des enfants de 2 à 10 ans, sur des portiques de jeux PlayStar Ninja Power montés adéquatement seulement. Avant l'utilisation, consulter les directives de sécurité complètes du portique de jeux original à www.playstarinc.com, ou au 1-888-752-9782. Les caractéristiques techniques sont sujettes à modification sans avis préalable.

We Will Gladly Help! • ¡Le Ayudaremos Con Mucho Gusto! • C'est avec joie que nous vous aiderons!

Monday through Friday, 8:00 A.M. to 5:00 P.M. C.S.T.
De Lunes a Viernes de 8:00 A.M. a 5:00 P.M. C.S.T.
Du lundi au vendredi, de 8 h à 17 h CST

www.playstarinc.com

Place tower or component in desired location.
Coloque la torre o el componente en la ubicación deseada.
Placez la tour ou la pièce à l'endroit souhaité.

Mark board with template using pattern shown on this step. **Note: DO NOT drill through template.**
Marque la tabla con la plantilla utilizando el patrón que se muestra en este paso. **Nota: NO perforo a través de la plantilla.**
Marquez la planche à l'aide du gabarit en suivant le modèle indiqué dans cette étape. **Remarque: NE PAS percer au travers du gabarit.**

Drill through board at correct location with bit size shown.
Perfore la tabla en la ubicación correcta con el tamaño de la broca que se muestra.
Percez le panneau au bon endroit avec la taille de mèche indiquée.

Drill down into board with the depth and bit size shown. **Note: You may use any bracket as a drill template.**
Perfore la tabla a la profundidad y con el tamaño de la broca que se muestran. **Nota: Puede utilizar cualquier soporte como plantilla de perforación.**
Percez dans le panneau à la profondeur et avec la taille de mèche indiquées. **Remarque : vous pouvez utiliser n'importe quel support comme gabarit de perçage.**

Mark board with measurement shown for location on this step.
Marque la tabla a la medida mostrada en este paso, para ubicar.
Marquez la planche avec la mesure indiquée pour l'emplacement sur cette étape.

Secure screw with bit size shown. **Note: Screw head should be flush or slightly below the surface.**
Atornille con el tamaño de destornillador mostrado. **Nota: La cabeza del tornillo debe estar a ras o ligeramente por debajo de la superficie.**
Fixez la vis avec la taille de mèche indiquée. **Remarque : la tête de la vis doit être à fleur ou légèrement en dessous de la surface.**

Secure hardware with socket/wrench size shown.
Apriete los herrajes con el tamaño de dado o llave mostrado.
Fixez la quincaillerie avec la taille de douille/clé indiquée.

Pre-drill into second board with correct depth and bit size shown. **Note: Use pre-drilled board as template.**
Perfore la segunda tabla a la profundidad y con el tamaño de la broca que se muestran. **Nota: Utilice la tabla previamente perforada como plantilla de perforación.**
Pré-percez la deuxième planche à la profondeur appropriée et avec la taille de mèche indiquée. **Remarque : utilisez la planche pré-percée comme modèle.**

Screw hardware into board or ground using shaft of screwdriver for better leverage.
Atornille los herrajes en la tabla o en el suelo utilizando el eje del destornillador para un mejor apalancamiento.
Vissez la quincaillerie dans le panneau ou le sol en utilisant le manche du tournevis pour un meilleur effet de levier.

Helpful Hints • Consejos útiles • Conseils pratiques

Make sure boards remain square. **Note: Assembly process should take place on flat surface.**

Asegúrese de que las tablas permanezcan a escuadra. Nota: El proceso de montaje debe llevarse a cabo en una superficie plana.

Veillez à ce que les planches restent à l'équerre. **Remarque : L'assemblage doit se faire sur une surface plane.**

This helps with assembly process.

Esto ayuda con el proceso de montaje.

Cela facilite le travail d'assemblage.

Do not _____.

No _____.

Ne pas _____.

Be sure boards are flush.

Asegúrese de que las tablas estén a ras.

Assurez-vous que les planches sont alignées.

Be sure boards/brackets are tight against each other.

Asegúrese de que las tablas / soportes estén apretados entre sí.

Assurez-vous que les planches/soutiens sont bien serrés les uns contre les autres.

Be sure boards/components are spaced the distance listed.

Asegúrese de que las tablas / componentes estén espaciados a la distancia indicada.

Assurez-vous que les planches/pièces sont espacées selon la distance indiquée.

Be sure to equally space.

Asegúrese de espaciar por igual.

Veillez à respecter un espacement égal.

Be sure boards rest on the ground.

Asegúrese de que las tablas descansen en el suelo.

Assurez-vous que les planches reposent sur le sol.

Playstar Logo showing:

Use tabs to square on corner of board.

Logotipo de Playstar visible:

Use las pestañas para escuadrar en la esquina de la tabla.

Affichage du logo Playstar : Utilisez les onglets pour ajuster sur les coins de la planche.

Arrow showing: Use tabs to slide along edge of board to drill location.

Flecha visible: Use las pestañas para deslizar a lo largo del borde de la tabla para perforar donde se indica.

Illustration des flèches :

Utilisez les onglets pour glisser le gabarit le long de la planche jusqu'à l'emplacement du perçage.

There is a rigid version of this template in hardware bag. Use **only** to mark boards. **Do not drill** through template.

Hay una versión rígida de esta plantilla en la bolsa de herrajes. **Úsela solamente para marcar** las tablas. **No perfora** a través de la plantilla.

Il existe une version rigide de ce gabarit dans le sac de ferrures. **Utilisez-le uniquement pour marquer** les planches. **Ne pas percer** au travers du gabarit.

GABARIT POUR LE PERÇAGE DES TROUS

TEMPLATE FOR DRILL HOLES

PLANTILLA PARA PERFORAR

CAUTION: Failure to anchor properly could cause serious injury. Anchors must be placed below the level of the shock-absorbing surfacing material to prevent tripping or injury resulting from a fall. Refer to the Safety Guidelines at the beginning of this plan. **Note: If soil conditions permit anchors to be pulled out easily, such as in sandy soil conditions, cementing is required. If your ground is too hard to screw in the anchors you can remove the earth with a shovel. Install the anchors and compact the earth as you replace it.**

PRECAUCIÓN: Dejar de anclar correctamente puede ocasionar lesiones de gravedad. Las anclas deben colocarse por debajo del nivel de la superficie del material amortiguador para evitar tropiezos o lesiones a consecuencia de una caída. Consulte las guías de seguridad al principio de este plan. **Nota: Si las condiciones del suelo permiten que los anclajes se extraigan fácilmente, como en el caso de suelo arenoso, entonces se requerirá de cementación. Si su suelo es demasiado duro para atornillar los anclajes, deberá quitar la tierra con una pala. Instale las anclas y compacte la tierra a medida que la coloca de nuevo.**

ATTENTION : Un ancrage inadéquat peut entraîner des blessures graves. Les ancrages doivent être placés sous le niveau du matériau de revêtement absorbant les chocs afin d'éviter de trébucher ou de se blesser en cas de chute. Consultez les directives de sécurité au début de ce plan. **Remarque : Si les conditions du sol permettent d'arracher facilement les ancrages, comme dans le cas d'un sol sablonneux, il est nécessaire de les cimenter. Si votre sol est trop dur pour visser les ancrages, vous pouvez enlever la terre avec une pelle. Installez les ancrages et compactez la terre au fur et à mesure que vous la remettez en place.**

CAUTION: Use two people to rotate, lift or support structure at this step to avoid injury to yourself or bending of brackets.

PRECAUCIÓN: Se requiere de dos personas para voltear, levantar o sostener la estructura en este paso para evitar lesiones o deformación de los soportes.

ATTENTION : Deux personnes sont nécessaires pour faire pivoter, soulever ou soutenir la structure à cette étape afin d'éviter de se blesser ou de plier les supports.

CAUTION: Use wrench to tighten Quick-Link Connectors. Failure to tighten Quick-Links securely could result in injury.

PRECAUCIÓN: Utilice una llave inglesa para apretar los eslabones de conexión rápida. Dejar de apretar los eslabones de conexión rápida de forma segura, puede provocar lesiones.

ATTENTION : Utilisez une clé pour serrer les connecteurs Quick-Link. Ne pas serrer fermement les Quick-Links peut entraîner des blessures.

This area left blank intentionally.
Esta área se dejó en blanco intencionalmente.
Cette partie a été laissée en blanc intentionnellement.

CAUTION: These boards should be pre-drilled to avoid cracking. **Note: Pre-drill into second board using first board as a template before attaching.**

PRECAUCIÓN: Estas tablas deberán perforarse previamente para evitar grietas. **Nota: Perfore la segunda tabla usando la primera como plantilla antes de unir las.**

ATTENTION : Ces planches doivent être pré-perçées pour éviter les fissures. **Remarque : Pré-percez la deuxième planche en utilisant la première planche comme gabarit avant de la fixer.**

CAUTION: Ground must be level. Installation on a hill or incline will create unsafe conditions.

PRECAUCIÓN: El suelo debe estar nivelado. La instalación en una colina o declive creará condiciones inseguras.

ATTENTION : Le sol doit être de niveau. L'installation sur une colline ou une inclinaison pourrait être une source de danger.

CAUTION: Spacing between boards must be less than 1/4" or a finger entrapment could exist.

PRECAUCIÓN: El espaciado entre las tablas debe ser inferior a 1/4" o los dedos podrán quedar atrapados.

ATTENTION : L'espacement entre les planches doit être inférieur à 1/4 po pour éviter tout risque de coincement des doigts.

CAUTION: Spacing between boards must be less than 3 1/2" (or greater than 9") or a head/neck entrapment could exist.

PRECAUCIÓN: El espaciado entre las tablas debe ser inferior a 3 1/2" (o mayor de 9") o la cabeza / cuello podrán quedar atrapados.

ATTENTION : L'espacement entre les planches doit être inférieur à 3 1/2 po (ou supérieur à 9 po) pour éviter tout risque de coincement de la tête ou du cou.

CAUTION: Minimum spacing is required from the closest point of all other rides or stationary objects.

PRECAUCIÓN: Se requiere un espaciado mínimo desde el punto más cercano entre todos objetos colgantes y estacionarios.

ATTENTION : Un espacement minimum est requis par rapport au point le plus proche de tous les autres manèges ou objets fixes.

COMBO WALL • PARED COMBINADA • MUR COMBO

Cut out Template for step 1.
Use to mark top edge and top drill holes at each interval.

Recorte la plantilla para el paso 1.
Úsela para marcar el borde y los orificios superiores a perforar en cada intervalo.

Découpez le gabarit pour l'étape 1.
Utilisez-le pour marquer le bord supérieur et les trous à percer à chaque intervalle.

Top- Use for Right Side Marking
Arriba- Use para marcar el lado derecho
Haut- Utiliser pour le marquage du côté droit

Top- Use for Left Side Marking
Arriba- Use para marcar el lado izquierdo
Haut- Utiliser pour le marquage du côté gauche

Lumber Notes • Notas acerca de la madera • Notes sur le bois

- Assembly is easier if boards are stacked by size before beginning.
- If 1" thick boards are not pre-drilled it is easier to complete using drill marking template before beginning the assembly process.
- 2" thick boards will be drilled during assembly process using drill marking template.
- Always use any pre-drilled boards as the drill template to drill 1" into second board before securing with hardware or screws.
- Lumber is a natural product. Imperfections are normal. Minor bowing can be straightened and imperfection hidden during assembly.

- El montaje es más fácil si las tablas son apiladas por tamaño antes de comenzar.
- Si las tablas de 1" de espesor no han sido previamente perforadas, es más fácil completar el proceso de montaje perforando antes de comenzar, utilizando la plantilla de marcado.
- Las tablas de 2" de espesor se perforarán durante el proceso de montaje utilizando la plantilla de marcado.
- Siempre use tablas previamente perforadas como plantilla para perforar 1" en la segunda tabla antes de asegurarla con herrajes o tornillos.
- La madera es un producto natural. Las imperfecciones son normales. Arqueos menores se pueden enderezar y las imperfecciones se pueden ocultar durante el montaje.

- L'assemblage est plus facile si les planches sont disposées par taille avant de commencer.
- Si les planches de 1 po d'épaisseur ne sont pas pré-perçées, il est plus facile d'utiliser un gabarit de perçage avant de commencer l'assemblage.
- Les planches de 2 po d'épaisseur seront percées pendant l'assemblage à l'aide d'un gabarit de perçage.
- Utilisez toujours les planches pré-perçées comme gabarit de perçage pour percer 1 po dans la deuxième planche avant de la fixer avec la quincaillerie ou les vis.
- Le bois est un produit naturel. Les imperfections sont normales. Les courbures mineures peuvent être redressées et les imperfections dissimulées pendant l'assemblage.

custserv@playstarinc.com

Monday through Friday, 8:00 A.M. to 5:00 P.M. C.S.T.

All boards have been dried and inspected prior to packaging. Occasionally a board may develop a slight twist or bow. If this occurs, it can be straightened when attaching boards during assembly. Rarely, a severe twist or bow may occur.

If this happens, please do not return the board to the store. Contact us for a replacement!

Gracias por escoger PlayStar.

¿Preguntas, dudas o piezas faltantes?

De Lunes a Viernes de 8:00 A.M. a 5:00 P.M. C.S.T.

Todas las tablas han sido secadas e inspeccionadas antes del empaquetado. Ocasionalmente, una tabla puede desarrollar una ligera torcedura o arqueo. Si esto ocurre, se puede enderezar al colocarla durante el montaje.

En raras ocasiones, puede ocurrir una torcedura o arqueo severo.

Si esto sucede, por favor no devuelva la tabla a la tienda. ¡Contáctenos para reemplazarla!

Merci d'avoir choisi Playstar.

Des questions, des préoccupations ou des pièces manquantes ? Veuillez nous contacter pour obtenir de l'aide !

Enregistrez votre produit PlayStar à: playstarinc.com/playstar-warranty

custserv@playstarinc.com

Du lundi au vendredi, de 8 h à 16 h E.S.T.

Toutes les planches ont été séchées et inspectées avant d'être emballées. Il peut arriver qu'une planche soit légèrement tordue ou courbée. Dans ce cas, elle peut être redressée lors de la fixation des planches pendant l'assemblage.

Dans de rares cas, une torsion ou une courbure importante peut se produire.

Dans ce cas, ne renvoyez pas la planche au magasin. Contactez-nous pour un remplacement !
